## KRSO Working Plan 2018

### Population Statistics Department

- **to complete the remaining works of demographic survey in cooperation with IOM and UNFPA**

This survey started in 2017. The stage of updating and collecting data has been completed and now it is passing the stage of cleaning and data processing and then report preparation.

*Deadline: the end of March 2018*

- **conducting two rounds of labor force survey**

The work plan of this survey will be prepared by April. Then the plan would be discussed with statistics directorates concerning performing this plan and appropriate time for conducting the survey. This survey is to be done in compliance with the latest standards of International Labor Organization through doing changes in questionnaire and methodology of the survey under direct supervision and instruction of International Labor Organization.

*Deadline: the end of 2018*

- **women laborer survey in Kurdistan region of Iraq**

This survey will be conducted in cooperation with World Bank in the beginning of February by surveying 1,000 families to obtain indicators on working women and the reasons behind not working of women.

*Deadline: the end of April*

- **starting preparatory work for doing a census on economic establishments in Kurdistan region of Iraq in cooperation and coordination with UNDP**

This census is considered as a big project in KRG aimed at paving the path for achieving economic reforms in Kurdistan region. This survey needs good cooperation among ministries and related parties in KRG. The preparatory work for this project is going to be done in April 2018.

*Deadline: the end of 2018*

- **collecting data on labore force in government sector**

The questionnaire has been already prepared for this purpose. All government institutions would be requested to send their information after approval of ministry of planning and making agreement on how to collect data.

*Deadline: the end of 2018*

- **Update estimation for population in Kurdistan Region of Iraq**

Following reporting the estimation of population of Kurdistan Region in 2013 that was estimated through the available data at that time, it is important to update the estimation on the basis of new data made available by new survey.

*Deadline: the end of July*

## Education and Health statistics department

- **Food security outcome Monitoring (FSOM)**  
Food security outcome monitoring would be done for IDPs inside and outside the camps for beneficiaries and non- beneficiaries from WFP. The first round of monitoring would be done in February 2018 and the second round between April and May 2018.
- **The 6th round of Multiple Indicator Cluster Survey (MICS6)**  
This survey would be carried out in cooperation between CSO, Ministry of health in Iraq federal government and Kurdistan region of Iraq under supervision of UNICEF. The first round of this survey would be carried out in the first half of 2018.
- **Iraq Women Integrated Social and Health Survey (I-WISH)**  
The survey has been suggested to be done in cooperation with CSO and coordination with UNFPA following conducting MICS6.
- **The Swift Household –Socio Economic Survey**  
This survey would be conducted in coordination with CSO under supervision of World Bank
- **Obtaining annual data from ministries of health, education, and higher education**

## Trade and Transportation Statistics Department

- **Tourism establishment survey in Kurdistan region of Iraq**  
The field work of this survey started on 12/10/2017. 10/2/2018 is the deadline for data entry and the report of the survey will be available by the end of February 2018.
- **Obtaining data on exports and imports from ministry of trade and industry**
- **To prepared a list for all tourism establishments in order to record concerned information on a monthly base. This will be done in cooperation with tourism office of KRG.**
- **Tourism companies survey in Kurdistan region of Iraq for 2018**  
This is an annual survey that is carried out by KRSO in cooperation with CSO, in which, every year the information of the previous year is gathered on the number and activity of transportation companies and their related indicators. The frame of the survey covers all tourism, Hajj and Umrah companies across Kurdistan region of Iraq.

## Data management Department

Data management department activities interrelates to other statistics departments in KRSO in carrying out surveys by preparing database for data entry programs whether by using Tablet directly in fields or data entry in data registration center in KRSO or in governorates. It also cooperates with other departments in data analyzing and preparing statistical reports when needed.

- The most important projects that data management department is currently doing in 2018:
  - **The 6th round of multiple indicator survey (MICS6) in cooperation with UNICEF**
  - **Household socio-economic monitoring survey (SWIFT) in cooperation with World Bank.**

## Industry statistics department

- **Conducting industrial establishments survey-big and medium establishments- in Kurdistan region of Iraq**

This project needs financial support from government. Frame updating and then field work will be started when it has been funded.

## Agriculture and environment statistics department

- **Winter cultivated area survey 2016-2017**

This survey is a seasonal survey which starts in February and March and lasts 45 field working days. The work teams directly visit the villages all over Kurdistan region of Iraq to collect information on cultivated areas.

- **Orchard and trees survey (area- number- yield)**

This is a general survey which starts from the beginning of June and takes 60 working days. The survey is conducted by KRSO in coordination with ministry of agriculture and water sources.

## Construction statistics department

- **The survey of building materials prices and workers compensation in private sector**
- **Seasonal building licenses survey in private sector for construction, demolition, and renovation**
- **Collecting data on construction companies at the level of Kurdistan region**
- **Collecting data on projects of construction in private sector at the level of government sector in Kurdistan region of Iraq**
- **Collecting data on projects of construction in private sector (investment board) at the level of Kurdistan region of Iraq and its governorates**
- **Collecting data on the number of construction licenses in private sector at the level of Kurdistan region and municipalities**

## Consumer price index department

- **Collecting prices for more than 500 items at the level of governorates (Erbil, Duhok, Sulaimani) and districts centers in Kurdistan region of Iraq on a monthly base**
- **Collecting prices on residences rental at the level of governorates on a seasonal base**
- **Releasing report and press release on a monthly base**

## Information technology (IT) department

- **Preparing a central database for all KRSO's data**
- **Preparing and Installing a new server for data entry center**
- **Re registering the users on KRSO server**
- **Uploading old data in order to be reused when needed**

**Kurdistan Regional Government  
Ministry of Planning  
Kurdistan Region Statistics Office**

# KRSO Working Plan 2017

## Population Department

### **1. The 2017 survey for “Labor Market Needs to Technical and Vocational Education and Training in economic sectors except governmental sectors”**

This survey is a part of a bigger project being called “*Labor Market Assessment and Sector Skills Analysis for the Further Development of TVET*” in Iraq and Kurdistan Region” that is conducted by UNESCO in cooperation with ministries of education, higher education, labor and social affair to assess the vocational education in Iraq and Kurdistan region. Deadline: the end of March 2017.

### **2. Two rounds of the labor force survey in 2017 (June and November)**

The preparatory stage for funding and the way of doing the first round of this survey that is going to be done in June 2017 has been discussed with Statistical directorate in governorates and now it is looking for the ministry of finance approval to provide the required budget. Deadline: August 2017.

### **3. New estimation for population in Kurdistan Region**

The estimation includes the followings: population, life table, life expectancy, Fertility (fecundity), and some other indicators. Deadline: the end of June 2017.

### **4. Conducting a demographics survey in Kurdistan Region**

The survey will be carried out in cooperation with The United Nations Population Fund (UNFPA). Deadline: the last quarter of 2017

### **5. Preparing a comprehensive report on all labor force surveys that have been done**

The aim is to make a comparison between the results and to identify the reasons behind changes in the figures of labor force indicators. Deadline: the end of 2017

### **6. Doing a demographic survey for IDPs in Kurdistan region**

The survey will be done by IOM. Deadline: the second half of 2017.

### **7. To computerize the data of censuses 1957, 1977, and 1987 in Iraq.**

These data are available on paper and they are being entered in computer to be easily used. Deadline: the end of 2017.

## Education, Health

### 1. Food Security Outcome Monitoring (FSOM) for IDPs

In cooperation with WFP, KRSO carried out the food security survey for IDPs inside and outside the camps at the beginning of 2017. The first round of the survey was done in March 2017 and the second round was carried out between April and May 2017.

### 2. Comprehensive Joint vulnerability Assessment Survey for Syrian refugees in Kurdistan region

This survey will be done for Syrian refugees inside and outside the camps. Deadline: July 2017 (after Ramadhan).

### 3. MICS6 survey

This survey is a joint work between CSO, ministry of health in Iraqi federal government and Kurdistan region in cooperation with UNICEF. Deadline: the end of 2017.

### 4. The Swift household socio-economic survey

This survey will be done in cooperation with CSO and coordinating with World Bank. Deadline: July 2017

## Analysis Department

### 1. Poverty targeting survey

Doing reform in social safety net in ministry of social affair and labor, Kurdistan region government, and other governmental and international organizations like ministry of planning and World Bank agreed on gathering information on households that are covered by social safety net to reveal their economic situation through a regression model (Proxy mean test) to identify the poor households. To get the aim, a pilot survey would be done in a poor district in Kurdistan region. Then Dashti Hawler district has been selected for the purpose. According to the designed plan, KRSO has developed an android system database to collect information directly from the field to the own cloud sever.

It needs to open a 2 day training course on 26 and 27/3/2017 for enumerators from ministry of social affair and center supervisors from KRSO to directly do field work on April 3rd 2017. Then, the collected information will be sent to experts from World Bank after being cleaned in order to run the mean proxy test model to get the score for each household.

## Agriculture Department

### 1. Winter cultivated area survey 2016-2017

This survey is seasonal survey starts in February and March during 45 field working days. The work teams directly visit the villages all over Kurdistan region to collect information on cultivated area and all related indicators in figure form.

### 2. Area-yield-production-expenditure survey for Winter Planted Crop 2016-2017

Based on the data achieved from winter cultivated area survey for July and August, the estimation will be done through Area-yield-production-expenditure survey for Winter Planted Crop in a 30 day field work. The survey is in sample form. A rectangle area with length of 20 meters and width of 2 meters in a village will be selected as sample. The selected area will be

marked with iron pillars and tied together by a rope. Then the surrounded area will be harvested and the crop will be gathered in a tent to separate grain from straw. Then the grain will be weighted and then it will be generalized and estimated for one donm of land. This estimation will be a base to calculate the yield and the production size for the smallest administration unit of the boarders to be surveyed.

### **3. Sumer crop cultivated area survey 2017**

This is a seasonal survey and starts at the beginning of September of every year. The information is gathered during a 30 day field work in a sample form. The aim is to calculate information on summer crops like tomatoes, eggplant, squash, okra ...etc. as well as the information on yield, production, and cost for one donm of land.

## **Trade and Transportation Department**

### **1. Tourism companies survey in Kurdistan region 2017**

This is annual survey carried out by KRSO in coordination with CSO. Every year, the information from the last year is gathered. The aim of the survey is to gather information on the number and activities of the tourism enterprises and other related indicators. The frame of the survey covers all tourism enterprises across Kurdistan region.

### **2. Tourism survey in Kurdistan region 2017**

This is an annual and complete survey during which the information is gathered on the number of hotels, motels, tourism complex, number of visitors, night stay, income, costs, asset, laborer, and other related indicators.

## **Industry Department**

### **1. Industrial enterprises -big and medium- survey in Kurdistan region**

The Preparatory work is under going to fund the survey for further stages, frame updating and then field work. This survey is financially supported by government.

## **Construction Department**

### **1. Construction cost survey and the wages of workers in the private sector**

### **2. Seasonal Building license survey in private sector for construction, demolition, and renovating.**

## Program of KRSO in 2016

For more than two consecutive years, Kurdistan Region Governorate is struggling with a difficult situation as a consequence of:

1. Budget cut of Kurdistan by federal government of Iraq
2. Presence more than one million and half refugees and displaced people inside Kurdistan region
3. Involving in an unwilling fight with ISIS

These factors made Kurdistan Region to face economic crisis and not having adequate budget to spend on projects, among them statistical projects.

The crises made KRSO to seek another source of funding. KRSO asked international Organization for financial support in conducting urgent surveys in Kurdistan Region. These kinds of surveys are required in providing important indicators to evaluate the economic and social situation of the Region. The following surveys are scheduled in 2016 program of KRSO.

1. **SWIFT survey:** SWIFT survey is a special survey produced by the World Bank. In order to evaluate Kurdistan Region situation in all aspects, KRSO made an agreement with World Bank to implement SWIFT survey at the level of Governorates. The survey would be a continuous survey and would be done in the form of a small sample. The purpose of doing SWIFT survey is to update the data on poverty.

2. **Renewing Listing of Displaced people (CRDP):** there is an agreement between KRSO and IOM for a joint continuous project to renew the data on displaced people that was carried out by KRSO in 2015. The preparatory work is under going to jointly carry out the project in KRG governorates.

3. **Labor force survey 2016:** the Word Bank financially supports KRSO to conduct labor force survey in 2016.

4. **Two additional projects with UNFPA:** KRSO has prepared an annual work plan draft to conduct two projects with UNFPA. Now UNFPA is working on the draft and is due to inform KRSO about their final decision.

**5. Comprehensive Food Security and Vulnerability Assessment Survey (CFSVA):** The third round of CFSVA was carried out in Kurdistan Region by KRSO in coordination with Central Statistics Organization (CSO), nutrition department in ministry of health in Kurdistan region and Iraq with financial support by World Food Organization. The aim is to evaluate the food security condition, malnutrition between children and identify the vulnerable people. The preparation work started in early March 2016 and the field work is undergoing by the end of May 2016.

**6. Making Profile for displaced, refugees, and Erbil' residents:** in cooperation with UNHCR Organization, the statistics directorate of Erbil conducted a project to profile IDPs, refugees, and hosting community in order to study the characteristics of these groups in term of demography, and other issues. The same project is to be done with cooperation of the mentioned organization in the rest governorates of Kurdistan Region afterwards.

**7. The last project:** the last project is the project of World Bank to inform about economic and social situation of IDPs and refugees and their effects on host community. The survey will use the same frame that has been prepared by KRSO for IDPs in 2015. This project is similar to the one mentioned in 6<sup>th</sup> point but more extensive with different questions.
